

SGC Newsletter 6

Welcome and Thankyou

Welcome to our latest newsletter and to all our new customers, welcome to the family. We hope you all had a wonderful Christmas. 2020 was a year I don't think any of us will ever forget. What started out with our usual family summer holiday, soon turned to be a place full of uncertainty. But we made it! We are extremely proud and grateful that we made it through these difficult times but we couldn't have done it without your continued support. We cannot thank you enough that you stayed with us and we are honoured that you continue to choose SGC. Happy New Year and here's to a much better 2021.

Invoices

Over the next few weeks, you will notice that your invoice comes to you on a different day rather than on a Sunday. Fi is now taking over sending these out either the day that the work is done or the day after, which will give us more 'family time' on Sundays. Also, we have had a few customers contact us saying that they haven't received their invoice and for some strange reason, they have been in the spam folder! If you think you are due an invoice and don't receive one, please check your spam folder and add SGC to the safe senders list.

Special Offer

Special Offer - another fabulous gardening offer from SGC!

A free perennial (Heuchera) for your garden when you book a 3hr or more gardening slot. Please mention offer SGCFP05 when booking. Please text or email to book a slot (and the colour of the Heuchera you'd like - red, black, green, lime, orange or purple) Offer valid until 31/03/21

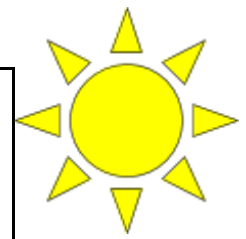

If you already have regular garden maintenance with us, don't worry! If you would like to have the free perennial, just email us to let us know which colour you'd like.

Got a question!

Sunny is always available to answer any gardening questions you may have. If you don't see him in person, why not email him sunnysgardencare@gmail.com

Garden Advice Corner

Summer gardens have an abundance of flowers. However these are under pressure from diseases due to high humidity, so keep an eye on them. Now we are able to use the hosepipe again, water in the morning or evening to avoid evaporation, water deeply for longer to encourage roots to grow deeper and water directly to the soil to minimise diseases.

Social Media

As well as the usual phone number and email contact, did you know that can also send us a message through our website? Fi has recently created pages on some popular social media sites of Twitter, Instagram and Facebook. Why not check them out! They are still very much in the really early stages as she's teaching herself how to do this!

www.sunnysgardencare.co.nz

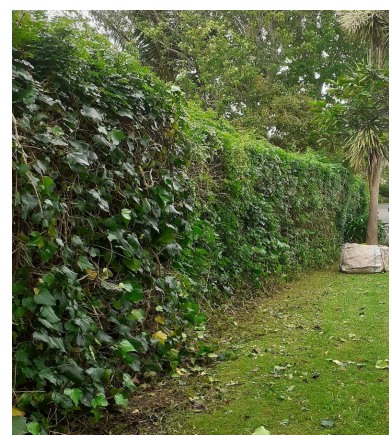

Please click on the icon, this will take you directly to the site (hopefully!)

Important Dates

Sunny will only be taking off the public holidays this year until the winter months. We are hoping to take a short family break around July 2021, but we'll keep you posted!

Before, During and After

A new 'before, during and after' picture from one of our customers

In the next Newsletter.....

- Spring Bulb Offer
- Free Waste disposal on 3hr Gardening session
