

SGC Newsletter 8

Welcome and Thank You

Welcome to our latest newsletter and to all our new customers, welcome to the family. Thank you to all our established customers (notice I didn't say old!) for your continued support. The SGC 'family' has grown so much in the last 2 ½ years, we now have over 130 lawns and a rapidly increasing number of gardens to maintain (and Sunny loves every single minute of it!)

Christmas Gardening Bookings

I know it seems crazy talking about Christmas now as it seems really far away, but actually there aren't many gardening spaces left for a 'before Christmas' slot. If you'd like to book one BE QUICK, as there are only spaces available on a Sunday in December and this means no power tools (all Fri and Sat slots are fully booked).

November's gardening slots are disappearing fast too, so it will be first in first served Friday, Saturday or Sunday. We already have several bookings for January 2022 too. If you have pre-booked slots for regular gardening maintenance, I will be confirming those dates by email next week.

Special Offers

In the last newsletter, I mentioned that the next special offer would be lawn edging and shaping. However due to the large amount of rainfall, we are currently unable to offer this service. Hopefully we can bring you this at a later date.

Invoicing and Reminders

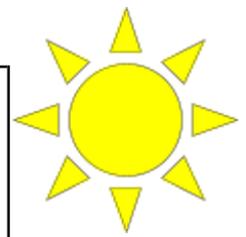

A huge thankyou to those customers who put the invoice number on the bank payment, it makes my life so much easier! Speaking of invoices, I have now removed the reminder notifications that were sent out automatically after 1, 3 and 7 days. Although there is 7 days to pay, if your account remains unpaid for another 7 days after the payment date, I may send you a personal email reminder informing you of when the late payment fee will be applied.

Please see our Term and Conditions of Service.

Got a question!

Sunny is always available to answer any gardening questions you may have. If you don't see him in person, why not send him an email or send us a Facebook message or even just ring us!

Sorry but....

Every 3 months from the beginning of the year, the waste disposal sites have increased their prices to us. I'm sorry to say now that we have no choice but to raise our price for waste disposal too. From August 1st a full van load will increase to \$90 and half a van to \$45.

Weed Spraying

As well as the regular weed spraying for \$15 which lasts 2-4 mths, we are now able to offer a much longer lasting weed spray service which lasts for 6-12mths. However, as the product remains active in the soil for a while, it is not suitable for all areas of your garden. Please talk to Sunny about the suitability for your garden and the exact price. Prices start at \$25.

Garden Advice Corner- Winter

Although there aren't so many flowers in gardens during Winter, a great way to add a splash of colour to your garden at this time of year is by adding foliage. This can be a real colour hero to you outside space with some gorgeous reds and yellows (definitely not pink in my garden though) providing a striking display. One of my favourites is Nandina which I have in a huge pot on the patio. It boasts multi coloured foliage which changes depending on the season.

Getting in Touch

There are lots of ways to get hold of us
