

## SGC Newsletter 9

### A HUGE, HUGE Thank You

Welcome to our latest newsletter and to all our new customers, welcome to the family. I would like to take this opportunity to say a heartfelt thankyou to those customers who continue to support SGC. Your thoughts and best wishes during lockdown (and the wee finger accident that followed shortly after) were most welcome. Your commitment to us is something that we at SGC value deeply and appreciate. Thankyou for sticking with us!

### Good news :- ) and bad news :- (

Perhaps the biggest news from SGC (apart from the finger update) is to tell you that we have made the difficult decision to sell the **majority** of the lawn mowing business . We have become a victim of our own success. We had reached an impasse - we couldn't get any bigger and Sunny can't continue to work 7 days a week. Something had to give!  
Our main focus now will be on the gardening (with a few lawns that we're keeping)  
The lawn mowing business is currently being advertised on Trade Me. We have a few enquiries but no sale as yet. If and when we do sell we will contact the people affected by personal email setting out the who, what and when the changes will begin.  
There will of course be a transition between Sunny and the new people to ensure a smooth handover so that the usual very high standard of work remains.

### Fingers update

On 29th September, Sunny was out mowing grass when he had a "little" accident. His hand slipped and he cut 3 fingers. After an immediate patch up at Emergency Care and a VERY long visit to A&E (and back again the next day) his fingers are on the mend. He's already been for an appointment to the specialist hand unit and will continue to attend these appointments for a while yet, but the recovery shown in such a short amount of time is nothing short of a miracle. I've lost count the times I've said "he's been very lucky".

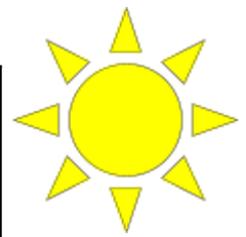

### Customer Feedback

We would like to include this section on our website and social media accounts. If you would like to contribute, please email us, or we may even email you for a quote!

## Long grass

By now, most customers have had their grass cut at least once. However, as you can see, Sunny is spending longer than usual cutting grass as it has grown a lot and is now really long. If you are still waiting for a first post lockdown cut, we will get to you as soon as we can. Luckily, Sunny had Joe helping out last week, so two Blessts for the price of one!

## Special Offers

In the last newsletter we mentioned that there would be a special offer for Spring. However, as we are spending a lot of time catching up, we are unable to provide the Spring Offer for gardening we wanted to - it's only because we don't have the time to carry it out. Watch this space and we'll announce the same offer in the next newsletter (for Winter).

## Terms and Conditions / Privacy Policy

We have recently updated these two policies. If you would like us to send you a copy, please email us. Alternatively, these can also be found on our website.

## Garden Advice - Lawn Care

Spring is the ideal time to sow new grass seed. To be at their best, lawns need to be fed certain nutrients on a regular basis - every 4 to 5 weeks during spring and summer. With any lawn watering is a necessity and during the summer months to keep them green and soft. A generous soaking once a week in the summer months will suffice.

## Getting in Touch

There are lots of ways to get hold of us:

Ph: 02102 999 531
